School Principal

VISION

Madar's vision is to be a leader in inspiring and molding tomorrow's innovative global leaders by facilitating their holistic development in the new world knowledge economy.

MISSION

Madar's mission is to inspire students to achieve their highest level of intellectual and personal development through comprehensive and technology-enabled educational programs and dedicated teachers.

Dear MADAR Family,

The conclusion of the first term is fast approaching. I would like to thank all our parents, teachers, and staff for the encouraging display of dedication and enthusiasm to help our student through this return to normal school operations.

A warm and vibrant learning community is something that our teachers, and school leaders continue to work very hard to uphold. Our primary goal is for each individual student to have a wonderful learning experience and receive the tools they need to succeed in their own lives. The parents of our students are one of the most valuable resources needed for our student to achieve success.

We emphasize to all our students that learning, which includes being constantly open to personal improvement, having a mindset that welcomes and addresses issues, and being resilient when times are difficult, is what really matters. We work hard to make sure that when our students graduate from MADAR International School, they have a set of principles and an outlook on life that will help them achieve in whatever endeavors they choose to pursue.

We can fully prepare all our students for adulthood through excellent learning and teaching, and ongoing reinforcement of our Core Values. We help them practice and develop leadership skills, and how to be highly motivated, confident, creative independent learners, and most importantly, understand the importance of being respectful and tolerant global citizens.

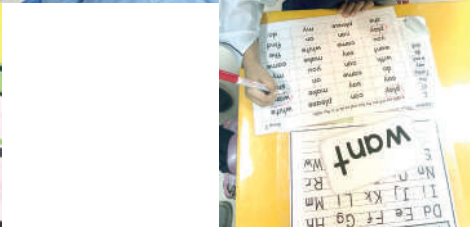

Independent Work

By: Ms. Bader Hammamy

Since the start of the school year, KG2B students showed responsibility and independence. They started to choose their own activities once they finished their work. We established activity boxes for math and English which included missing number mats, sight words sheets, and other activities. Students enjoyed picking their own activity, finishing it, cleaning it, and returning it back. Independent stations became a part of their daily practice at school.

Moreover, students also have their hands-on activities with cubes and building blocks. They build shapes on their own and sort by color/ shape independently. Students pick a box, play together and then tidy it up on their own. During the month of October, students implemented many concepts they learned, cooperation, and problem solving through play and independent work. KG2B students are doing an amazing job.

With guidance and support, students can show incredible abilities in learning and growing. They become little leaders of their own.

المولد النبوي الشريف

By: Ms. Heba Ismail

ولد الهدى فالكائنات ضياءً وفم الزمان تبسم وثناءً
يا خير من جاء الوجود تحية من مرسلين إلى الهدى بك جاؤوا
عليه أفضل الصلاة والسلام.

بمناسبة حلول المولد النبوي الشريف – صلى الله عليه وسلم - احتفلت مدرسة المدار الدولية يوم الجمعة 7 أكتوبر 2022 الموافق 12 ربيع الأول 1444 هـ بمولد نبينا محمد - صلى الله عليه وسلم - حيث شارك أطفال الروضة بالقاء، أنشودة لنبينا، وتلاوة آيات من القرآن الكريم والحديث الشريف، كما شاركوا بنشاط تصميم تيجان قاموا بارتدائها وعليها عبارة (بحبك يا رسول الله) وكانوا في قمة السعادة والفرح والبهجة.

Cheeky Monkey

By: Ms. Fatemeh Fard

Students in kindergarten visited Cheeky Monkey and participated in a variety of activities with the staff there. In the photo, we are in the experiment area where scientists can test out new materials and how they react with each other.

October was fun and enjoyable for all the students!

Classroom Activities

Our in-class stations are based on projects and crafts. Learning the alphabet or numbers is enjoyable.

Kindergarten Sports Day

By: Ms. Hagar

The Kindergarten sports day at Madar school was held in October 2022. It was a fun day focusing on promoting physical activity and healthy competition. Children enthusiastically took part in sports activities.

The first event of the new school year was all fun and games for the KG boys and girls.

Children participated with great enthusiasm in the various fun games that the Ms. Hagar planned for them.

With the favorable climate, and enthusiastic children, the Kindergarten sports day was a wonderful event.

The HOD of KG Ms. Cara and PE HOD Mr. Hani awarded classes for coming 1st, 2nd, or 3rd, but all our students were winners at the end of the day!

Math Department

Grade 1 used addition strategies to show addition. Using the ten frame, counters and blocks. Using blocks, they showed an addition sentence, and using counters they showed addition on the ten frame.

Grade 1 also learned about patterns, and used the blocks to show patterns (counting by one).

SSA & Moral Department

حراً من قسم الدراسات الاجتماعية والتربية الأخلاقية وتنفيذاً للخطة التشغيلية للمدرسة برفع المستوى الأكاديمي للطلاب وتدريبهم على مهارات القرن الحادي والعشرين فقد تم تدريب الطلاب على مهارات قراءة وتحليل الخريطة وتفسير دلالات الألوان عليها

Arabic Department

طلاب الصف الثالث بيوم التوعية بسرطان الثدي

تكرم الطلاب الذين تعيزوا بترتيب دفاترهم بعبادة اللغة العربية

طلاب الصف الثالث أثناء نشاط خريطة الكلمة

SSA & Moral Department

حرصاً من قسم الدراسات الاجتماعية والتربية الأخلاقية على تطبيق التدريب الأسبوعي للمعلمين بشكل عملي مع الطلاب فقد قام معلمو القسم بتطبيق استراتيجيات كيجن للتعليم التعاوني RALLEY COACH AND ROUND TABLE ساعد طلابنا على الاستمتاع بالأنشطة التفاعلية والتنافسية داخل الحصة الدراسية .

كل الشكر لكم طالباتنا الأعزاء .. أبدعتم ..

The presence of starch in our food

By: Ms. Manal Hammad

Practical activities are not just motivational and fun: they also enable students to apply and extend their knowledge and understanding of biology concepts, which can stimulate interest and aid learning and retention. Grade 10 students investigated about the presence of starch in food samples. Students followed scientific method steps to conduct their experiment.

The properties of lipids

Experimentation is the heart of science. Scientists ask questions, gather evidence, share ideas, and analyze data. In this biology class, grade 10 students used the scientific method to study, learn and investigate about the properties of lipids.

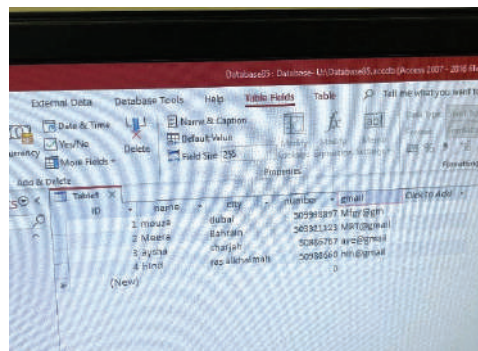

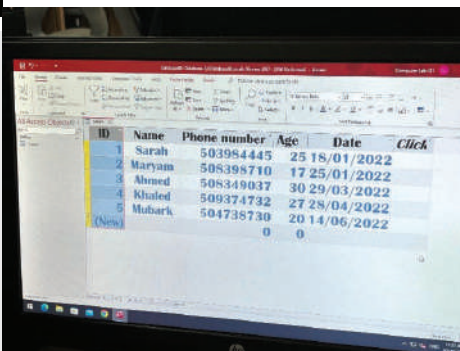

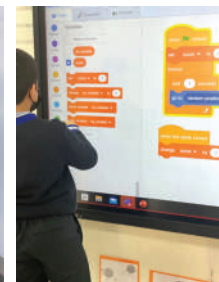

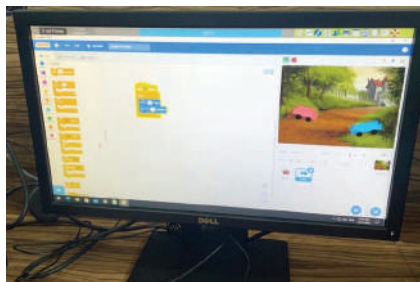

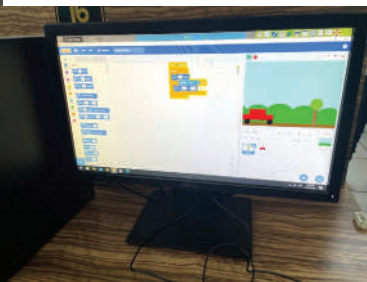

ICT Department

By: Ms. Kamar Kamar

It was an exciting month where students visited the computer lab and testing their skills in drawing and coding.

Grade (3 and 4) started this year using scratch 3 software which is a programming software in which students can create their own game and project.

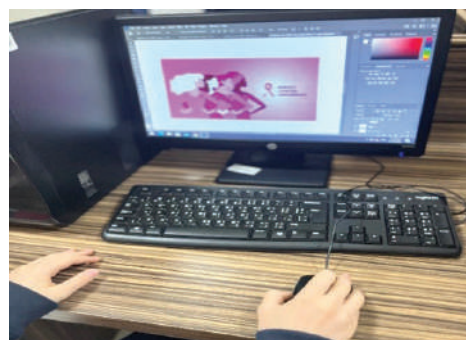

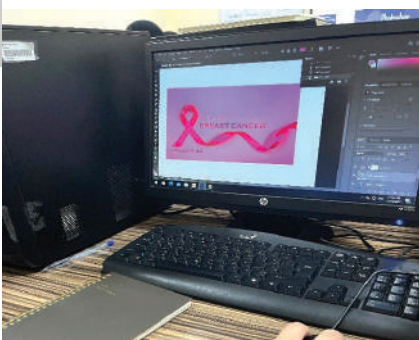

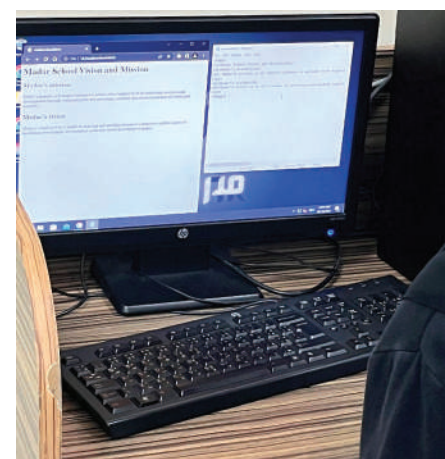

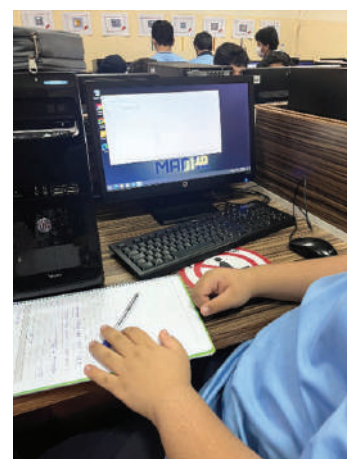

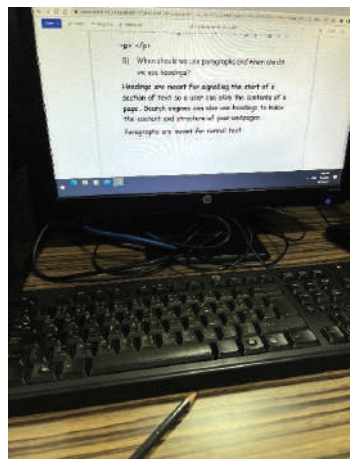

Grade 3 learned how to add different characters, change the background, and code their character to move forward and backward using keyboard keys. However, Grade 4 draw their own character as well as background and make their character to move and turn in different direction.

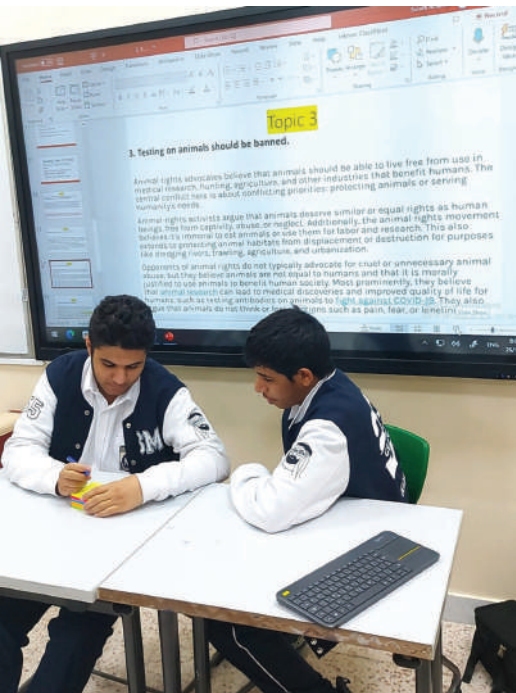

Our grade 9 students are learning about Access software, they are creating database for companies. They started creating tables with many fields and record.

our grade 10 students are learning HTML to create a website .

they started HTML to create a simple web page about madar school mission and vision.

Also, they did posters about breast cancer awareness

The Seniors Debate

By: Ms. Sulafah

Under the supervision of the English teacher Ms. Sulafah, Grade 12B1 had a vibrant debate on the topic of 'Testing on Animals Should Be Banned'. The students were divided into 2 groups: affirmative and negative, each trying to prove themselves more persuasive by providing strong evidence, facts, and reasoning.

The students spent 2 consecutive FIREY hours debating and arguing. It was very important for students at this age to understand and gain more knowledge, interest, qualifications, and skills about a future career during the English classes. Therefore, and since the job of a lawyer is high in demand in the UAE, students were taught the essential skills of negotiating, presenting, defending ones' point of view, evaluating, and communicating.

Additionally, Ms. Sulafah assigned judges whose primary role was to preside over hearings, listen to the arguments of both parties, and resolve dispute, in an effort to sharpen such important skills in the students from an early age and stir the love of such an influential profession.

Student's Corner

On a sunny Sunday, Alexa woke up bright and early at 7:25 AM. she brushed her teeth and showered. She went to the kitchen asking her mom what was for breakfast, her mom kept saying "it's a surprise please just wait and give me 2 minutes or a little more" Alexa couldn't wait much longer than 2 seconds. Alexa ate her breakfast which was her favorite, waffles, and went outside with her best friend, Sky, they were pretending that they had a Tesla and driving around but they were just riding their horses around. Alexa's horse's name was Spirit and Sky's horse was Boomerang, Spirit was a beautiful horse and boomerang was the funniest looking horse. Sky was happy with him and so was Alexa. Every day they would just ride around the little town so as get so much love every day. But one day they saw a mall that looked so happy and fun but when they went inside the mall, there were cobwebs everywhere and spiders, normal ones, of course, there were only creepy shops that sell spiders as pets but no one knew that the 'pet' spiders were poisonous! Alexa and sky knew that the spiders were poisonous because they are smart enough for it, they told the police but none of them believed them so they had to do it by themselves. They got home and started getting supplies when they had everything, they went to the mall and dressed up like old grandmas that wanted pets, they went to the first shop and acted like they loved the spiders and asked to buy two for them and once they got them, they put the spiders on the owner (manager) and got the costumes off, the owner said "YOU RATS, WHY DID U DO THAT?! I DIDN'T DO ANYTHING TO YOU!" the girls said, "you were trying to poison and kill these poor people!" He said, "oh kids, kids, kids, do you think that I would do that to my grandchildren?" The girls said "what! Our grandparents died a few years ago" he said" oh uh.... Sorry for everything" they said "oh people are a waste of money, you lost your money to buy this mall and look at it" they turned around and looked at the cobwebs, but suddenly the owner pushed them down the staircase and they were in pain! He acted like he didn't do anything and kept calling the hospital "hospital! Please, this is an emergency!!" The hospital truck came in a rush and took the girls to the hospital, their parents were crying but one tear of water fell on Alexa and Sky and that woke them up in such pain..... their parents were so proud of the doctors but that wasn't the doctors who did it, it was the parents who saved them, and that owner got to jail and so as the workers there.

THE END

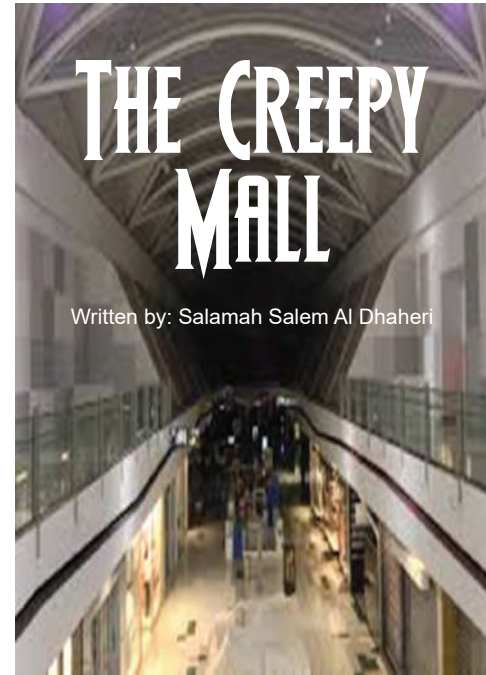

One night I was home alone at 8 PM, I wasn't scared but I might be.

I called my friends over but sadly they said they had to go to sleep after studying, I was sad but also happy at the same time, with no one with me.

I could do anything that I want, I was playing on my Xbox on my world just building a hospital and mall, but suddenly I heard a knock on the door, it was just one knock and I never saw someone just do one knock, I didn't want to open the door... once I wanted to go upstairs again to try to see if there was a car, bike, horse, or something, I didn't see any of those. I heard the door breaking I was so scared, but then, I remembered, I had 2 birds to protect me...

I let out one that was so strong and now I might be safe a little bit I heard some footsteps coming up the stairs I took the birds and went to the bathroom I put something on the 2 birds, so they won't fly outside the house... I heard some footsteps in the room I tried to be quiet and tried to keep the birds quiet by feeding them their favorite kind of seeds... I heard it coming near the bathroom door I was ready to let the birds fly on it and attack it like it was going to do to me... I heard my parents' voice and then I heard them running over to the bathroom and opening the door, I was going to let them fly on my parents but when I saw them, I hugged them so badly and I told them everything, but they didn't believe me until a creature opened the closet and chased my parents! I took the birds and ran behind it and let the birds go attack it, once the birds beat it up, we all carried it to the beach and threw it, we knew it was bad for the animals down there but we couldn't have that thing trying to kill poor people like homeless ones. When we got home, we immediately called the police to check the house if there is anything else and when they were doing that we bought a new door, the police said "We're done and there is nothing else, if there is just call us we are always available" we said "Thanks we appreciate it" when the door was here my dad started making it fit in the front door place, I went to bed and so as my parents of course when they were done with the door.
